

PRODUCT-DETAILS

# 74911B5N

## 74911B5N Universal display module

### General Information

Extended Product Type	74911B5N
Product ID	2CSH240495R2006
EAN	8012542404958
Catalog Description	74911B5N Universal display module

Long Description	<p>Universal display module for bed / corridor databus (model Systevo Call - Antimicrobial) Universal display module with high-quality LC display for displaying information from the local station/level. With integrated function keys for use by the care service. Equipped with two-row, each 8-digits, alphanumeric LC display with back-lighting. Can also be read off from a larger distance and low ambient brightness. Display of system messages with set presence in the allocated room (alarms, calls and presence etc.) with the highest priority, rolling with several messages of identical priority. Acoustic call forwarding with set presence and the possibility of triggering additional calls. Info mode (display of messages) for the tamper-proof operation configurable, e.g. for use in facility corridors. Display and selection/de-selection of services (interconnections) via function keys. Display of the time, if system time available. Integration of the universal display module into the room bus or bed bus. Upgradable to future system firmware due to forward-looking flash technology.</p>
